

# Transformation program opportunities

Maximising opportunities for locally based businesses and people in the region are a priority for this project, including Aboriginal workforce, apprentices and trainees. Local participation in the transformation works provide important economic stimulus for Leigh Creek and surrounding communities.

The physical transformation of Leigh Creek includes a significant demolition program which will be undertaken over an intensive two to three-year timeframe from the commencement of works. The Future 2020 Township Transformation Plan includes the demolition of surplus housing and some commercial and community facilities.

The project allows for an additional demolition program which may be required, for all or part of a list of identified residential, community and government buildings and facilities, should they not be sold or transferred in a market process.

## **The Process: Information and Registrations of Interest**

To assist in identifying businesses and people located in the region and surrounding regional area who are interested in working with and supplying to the successful Contractor, the Department for Infrastructure and Transport has collected contact details of interested businesses via a Registration of Interest to share with the potential tenderers.

### **INDIVIDUALS**

We wish to note that if registering as an individual, a White Card is a minimum requirement.

It would be advantageous to have specific building/construction related qualifications, certification and/or training prior to registering.

### **LOCAL CONTRACTORS**

Contractors interested in registering need to provide information regarding their Contractor license number (OCBA issued) specific licenses, skill/trade qualifications and building construction related certifications. i.e. White Card, Asbestos Awareness Certificate etc.

Should you be interested in the opportunities available from the transformation works, please provide the following details by email to Rowan Magor from the Office of the Industry Advocate at [rowan.magor@sa.gov.au](mailto:rowan.magor@sa.gov.au)

- Name/ Business Name (if applicable)
- Skill / Trade
